

## **Portable Aluminum Demo Case with Built in Wattage Meter**

Our beautiful aluminum demonstration case is the perfect solution for the LED light bulb salesperson. Whether you are just starting out, or have LED experience, you are guaranteed to love this product. This demo case is produced for LED dealers, by LED dealers. This case will allow you to show your products in a classy and professional manner. It is made especially for LED light bulbs to showcase how wondrous the LED luminaries really are.

This demonstration case offers twelve light sockets, 6 E27, 3 GU53 and 3 GU10. Each socket has an independent ON/OFF switch, which comes in handy when measuring wattage. The built in wattage meter is accurate and easy to use. For convenience it has a handle and a foam storage space for your LED light bulbs.
