

EagleLight 4 Watt 27SMD LED Chandelier E12 Candelabra Base

This LED candelabra globe bulb is available in both natural white and warm white and fits into a standard US Candelabra base, technically know as a E12 base. It provides great lighting for such a small size. There are 27 bright LEDs enclosed in a round bulb. These globes are great for LED accent lighting and chandelier LED lights. The corn cob LED array offers light in a larger beam angle so light is projected both up and down from the socket. Use as an interesting replacement for LED flame light bulbs and LED bathroom lighting.
