

LED Strip Only for Color Changing Mood Strip

LED Color Changing SINGLE STRIP w/o power supply, controller or remote. The new LED Mood Ribbon flex-strip is a flexible, slim, high brightness, multi color changing strip ideal for all interior and exterior applications. It is available with a black or white background to suit your needs. This light is housed in a thick transparent silicon casing that offer water resistance when connectors are properly sealed. Small size and cool light output make the mood strip ideal for a wide range of applications such as cove lighting, back lighting, shelves, cabinets, behind head boards, guidance lighting, channel letter lighting and so many other applications. These strips offer a great solution for everything from home projects to serious architectural lighting.
