

28 Key Color Changing Mood Strip Remote and Controller

Replacement remote and controller for our mood strips. This specialized remote not only has the 16 colors and four settings (flash, fade, strobe and smooth) that the original strip remote has, it also has a do-it-yourself (DIY) button. The DIY button allows you to create a color of your own and make it the 17th color. This DIY button is reprogrammable. This remote can be used with the S5050-1W18S-RGB-WP, S5050-1W18S-RGB-4S and S5050-24W180-RGB-W. It is NOT for the color changing light bulbs or the ultra strip lights.

REMOTE AND CONTROLLER ONLY.

Can display 16 colors including white with 1 second flash, 3 second strobe, fast fade, smooth fade and dimmer. 1 Do-it-yourself (DIY) button. Simply use the red, green and blue up and down keys to create a color. When you get your desired color immediately press the DIY button for 10 seconds. This will save that color. This button is reprogrammable.

Battery included.

PRODUCT SKU: STRIP-REMOTE28
