

## 13 Watt, 84 LED Tube Light Replacement for 75 Watt Incandescent Bulb

This LED light bulb is a great 75-watt replacement that has a longer life than incandescent bulbs and uses a fraction of the electric consumption. This bulb has eighty-four 5050 SMD chips with four on the top and eight columns of ten LEDs around 360 degrees. It can produce an astonishing 850 lumens of light. Although this bulb can be extremely bright, the outer layer of diffused lined plastic provides excellent heat dissipation so that it remains cool to the touch. This tube light is available in warm white, natural white, day white and cool white. It has great quality, long life, fine craftsmanship and design.

- **Bulb Shape:** Tube
- **Base Type:** E27 Standard Screw-In
- **Replacement For:** 75 watt Incandescent
- **Color Range:** Warm, Natural, Day, Cool White
- **Light Source:** 84 High Power LEDs
- **Housing:** Diffused Lined Plastic
- **Operating Temperature:** -4F to 122F (-20C to 45C)
- **Starting Temperature:** -4F to 131F (-20C to 55C)
- **Universal Power Voltages:** 85-265 Available
- **Beam Angle:** 180 Degree Also Available
- **LED Source Life:** 35,000 hours
- **Dimensions:** 2.36in x H 7.80in (59.9mm x 198.1mm)
- **Box Dimensions:** 3in x 3in x 9.25in (76.2mm x 76.2mm x 234.95mm)
- **Weight w/Box:** 14oz (575g)
